CLINICAL TRAINING IN PSYCHOLOGY (*SHORT-TERM*)

CANDIDATES ARE REQUESTED TO KINDLY TAKE TIME TO READ THE FOLLOWING CAREFULLY PRIOR TO COMMITTING THEMSELVES FOR THE PROGRAMME:

Aims & Objective of the Training:

- ψ To provide supervised clinical exposure to psychology students vis-a-vis their academic curriculum needs.
- ψ Give a brief exposure to students of Psychology about their future prospects in mental health.
- ψ Develop professional outlook and systematic focus on mental health issues.
- ψ Provide case-management skills to students

Structure of the Training:

1. THEORY CLASSES

- i. Overview of Psychiatric Disorders (Adult & Child) – 2 hours
- ii. Basics Of Case Management And Dealing With Patients – 1 hour
- iii. Interviewing And History-Taking Skills – 2 hour

2. PRACTICAL training

Supervised management of psychiatric cases includes basic interview skills, history taking, and systematic observation.

3. LOG BOOK

Each student is required to maintain a log book containing systematic case record of 10 cases they have seen. These log books may be made in compliance to specific curriculum needs of the course the student is attending.

Each trainee will be provided with:

- ✓ Supervised Interface opportunity with psychiatric patients and their families.
- ✓ First hand opportunity to interact and understand the work ambience of a mental-health set-up
- ✓ Experience of the various execution areas of Clinical/Counselling Psychology.

Day visit to other Asha Centres: (Optional; Transport is the responsibility of the trainee)

- ❖ *ASHA JYOTI REHABILITATION CENTRE*
Half-way home for the chronically mentally ill; situated near Shamshabad, Hyderabad
